Paragraph 5. This Paragraph 5 is added to Attachment A and reads as follows:

GSP Codes-Notwithstanding anything to the contrary in the Agreement, for certain genetic testing panels ordered by providers, PPC acknowledges that Quest Diagnostics may bill using individual CPT codes for the individual components of the test or the components for the core tests in the panel, rather than using the Genomic Sequencing Procedure (“GSP”) code or miscellaneous panel code for the entire panel. Plan will provide ninety (90) days’ prior notice in the event PPC elects to receive claims utilizing the GSP Codes or individual miscellaneous code. In the event PPC requires Quest Diagnostics to bill using GSP codes or the combined miscellaneous panel code, the parties will mutually agree on acceptable rates that meet the economic expectations of the parties, and PPC will adjudicate claims billed with the GSP codes as Medically Necessary Covered Services if one or more of the component tests is considered Medically Necessary or a Covered Service.
